Crude Fiber.....min 0.1%	Vitamin D <sub>3</sub> .....min 7,500 IU per 250 grams
Ash.....min 9.0%	Vitamin E.....min 30 IU per 250 grams

**INGREDIENTS**

Dried Milk Protein, Dried Milk, Dried Whey, Animal Fat Preserved with BHA, Lecithin, Vitamin A Acetate, D-Activated Animal Sterol (source of Vitamin D<sub>3</sub>) Riboflavin, Calcium Pantothenate, Niacin Supplement, Choline Chloride, Ascorbic Acid, Manganese Sulfate, Zinc Sulfate, preserved with Citric Acid, Calcium Carbonate, Vitamin E, Sugar, Dried Lactobacillus Acidophilus and Dried Streptococcus Faecium, A combination of selected fermentation products that contains 8 billion CFU's per 250 grams maximizing gut health.

**DIRECTIONS**

*First Day*™ Complete Foal Milk Replacer is designed to be used in conjunction with the mare's colostrum.

0 to 24 hours: Mix 250 grams with 1 quart of water. Administer 1/2 pint per feeding, every 2 hours @ 37°C.

1 to 7 days: Use *First Day*™ Milk Replacer gradually increasing to 20 oz every 4 hours – always feed at 37°C.

*First Day*™ Complete Foal Milk Replacer is NOT equal to Mare Colostrum, but it is the next best thing when mare colostrum or equine plasma is not available.

*First Day*™ is a Bovine Colostrum based milk replacer for foals. It contains 14 grams of a special milk protein plus vitamins, trace minerals, calcium and phosphorus. The Ph is adjusted to encourage a subtle digestion process reducing the opportunity of scours. First Day is an extremely low Fiber <.10% as well as low in Ash < 9% which together reduces the scours brought on by too much fiber in the foals digestive tract. The formula is then balanced with a source of live (viable) naturally occurring microorganisms: Lactobacillus acidophilus, Streptococcus Faecium which is an unbeatable combination for positive gut health in foals.
